POPULATION OF MANITOBA

MANITOBA HEALTH SERVICES COMMISSION

HEALTH INFORMATION SYSTEMS DIVISION

MANAGEMENT INFORMATION SECTION

FOREWORD

The population data shown in this report are for Manitoba Health regions for the years 1985 to 1989 and are based on Manitoba Health Services Commission records, unless otherwise stated.

Data for the regions include population of cities, towns, villages, rural municipalities, local government districts, and unorganized territories. It should be noted that villages and towns are separately identified if these are incorporated. If unincorporated, their population counts are included in the rural municipality in which these are located.

Population for small areas, say a rural town, can be biased because the mailing address may be reported as the place of residence. An individual residing outside the town but having his mailing address there may be counted as living within the town. This bias in the population figures is reduced as the catchment area increases. Thus, regional estimates are not significantly affected by the misclassification bias.

Data for Indian Bands are included separately at the end of the report. The data are grouped by the Health region location of the Band, and the counts represent total Status Indians by Band. Garden Hill, Red Sucker Lake, Ste. Theresa Point and Wasagamack Indian Bands, formerly located in Eastman Region, have been transferred to Thompson Region.

The type of place indicates unorganized territory, and municipal status of incorporated places (city, town, village, rural municipality, and local government district). The following list indicates the abbreviations used for type of places:

C	City
IC	Inner City
LGD	Local Government District - a designated area having no local government; administered by the province through a resident administrator.
M	Municipality
RM	Rural Municipality
T	Town
UT	Unorganized Territory - an area with no local government or resident administrator.
V	Village
